

South Salt Lake

PARKS MASTER PLAN

The background is a light blue gradient. It features several white, fluffy clouds of varying sizes. Three stylized blue birds are shown in flight, scattered across the upper half. On the left and right sides, there are stylized green trees with simple branch structures. The overall aesthetic is clean and modern.

Parks, Recreation, and Open Space Vision Statement

South Salt Lake is a leader in providing parks, trails and open space for all residents and visitors to our community. All residents in South Salt Lake can walk to a park, plaza, or trailhead and participate in recreational activities. We are a community that values the preservation and protection of the natural environment through land use and development decisions and our actions.

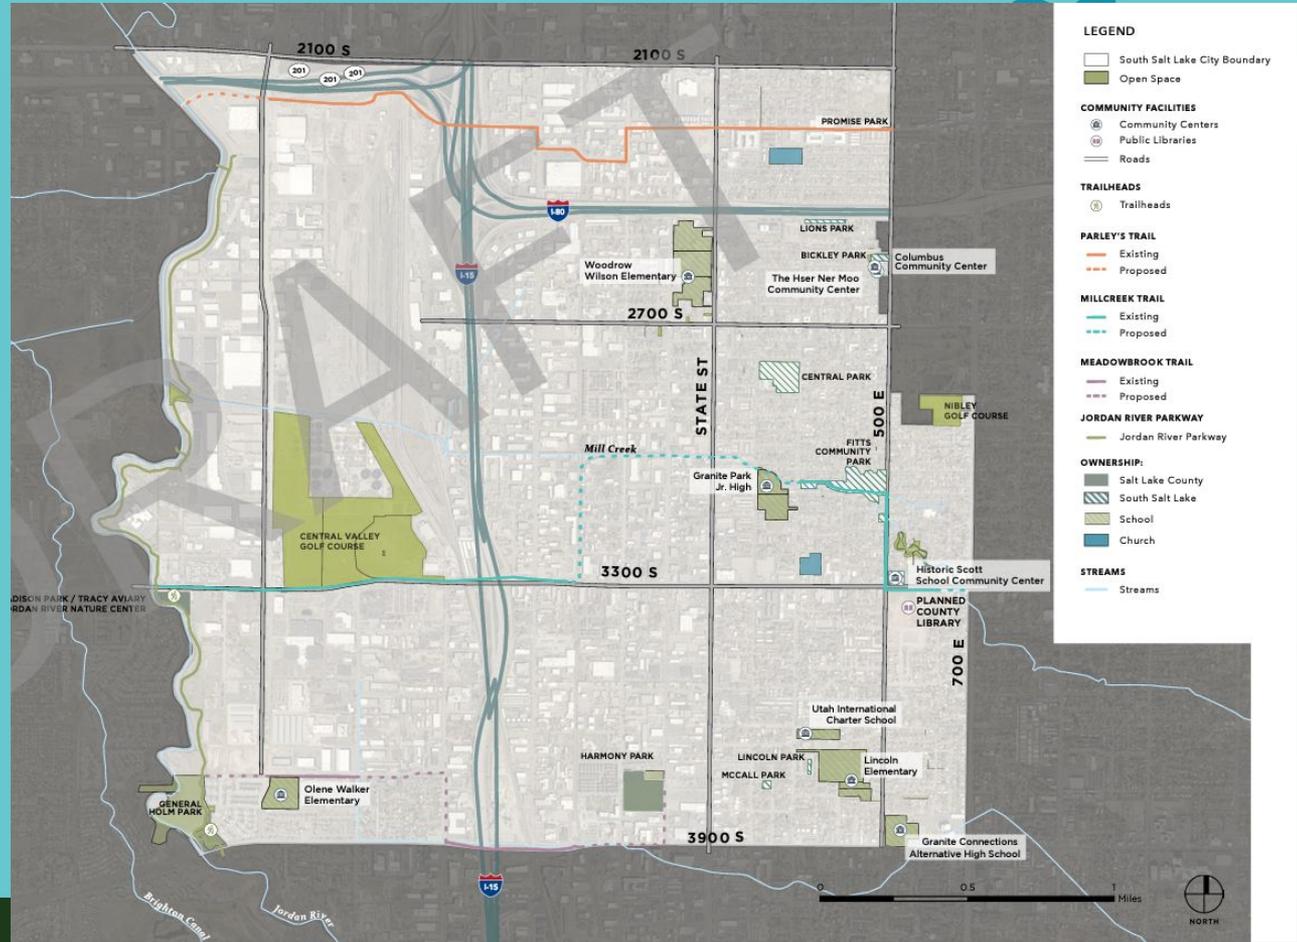

- South Salt Lake General Plan 2040

The background features a light blue sky with white clouds and blue birds. On the left, there are stylized trees in dark green and light green. On the right, there is a large green tree with a blue trunk. The title 'Context' is positioned in the upper left area.

South Salt Lake Parks Master Plan Survey

South Salt Lake is updating its 2015 Parks Master Plan to guide planning for the city's collection of parks and recreation facilities. This plan will provide a high-level guide for the vision of the park system, while future individual park plans will address the details for individual park sites.

We are currently gathering information and community input to understand how residents use our parks and identify opportunities for improvements to the park network. Take this short survey to tell us how you use the city's current parks, what activities you enjoy, and what you hope to see in the future.

Thank you for sharing your thoughts with us!
